

Clark Forklift

Presently, there are at least 350,000 Clark forklifts performing worldwide, and upwards of 250,000 in commission in North America alone. With five main lines across the globe, Clark is proud to be one of the most expansive corporations in the industry. Heavy duty trucks ranging from 1,500lb to 18,000lb capacities, dual fuel, petrol, LPG, hand powered trucks, narrow-aisle stackers and electric riders are some of their specialties.

Clark Totalift, covers more than 120,000 specialized items built for 20 distinctive models of forklifts and automated equipment. Your local Clark Dealer is your complete source for availability of all your components needs provided by Clark Totalift.

Clark features a extraordinary Parts Distribution team. The items warehouses are conveniently positioned in Changwon, South Korea and Louisville, Kentucky to guarantee exceptional service to both their customers and their dealers. For over 90 years, Clark has exceeded industry standards, being one of the most actively advancing manufacturers. Motivated to offer the highest level of value and service to our users, Clark remains on the leading edge when it comes to improving output and benefiting performance.

Clark Totalift has a very outstanding worldwide support network. With over 550 locations globally, seller representation in over 80 countries and 230 locations in North America, their high level of commitment to their customers predominates the material handling market.

Clark proudly remains an innovative leader of the industrial equipment industry, revolutionizing safety features such as the worker restraint system. This exceptional dedication to safety is now a standard feature on every forklift.

Clark has a continual mission to have the No. 1 quality system in the industry which is demonstrated by their commitment to ISO standards. Clark, is the first manufacturer of forklifts and lift trucks to be internationally certified with quality standard ISO 9001 in all of its production facilities. Furthermore, the ISO 14001 Environmental Conservancy System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement enables Clark to be prepared for any environmental limitations, thus placing them in a prevailing industry position.

Lean Manufacturing

Clark has selected the structure of "Lean Production" at all of its assembly plants because this method is particularly economical and allows for minimal use of resources. Established to guarantee maximum proficiency, this system is designed to discover and acknowledge the most effective methods for production plant management. Clark has completed this transition of its Korean plant. COPS which is Clark Optimized Production System, equally focuses on quality of product and services and production efficiencies.

Engineering

By working collectively, Clark's product suppliers and engineers communicate towards enhancing product effectiveness while minimizing expenses. The contemporary value engineering program combines innovative product improvement and provides superior client support and service within the industry.
