

Langley Forklift Training Courses

Langley Forklift Training Courses - When forklift operator safety training is customized for illiteracy, training time is reduced by half. Forklift training certification, lift-truck operator driver safety training evaluation, and train the trainer courses provide regulation-compliant, thorough training in industrial-powered fork truck use and safety. Forklift pedestrian safety is likewise offered.

We have a highly competent group of expert trainers to make sure that your employees are well-trained. The certification is delivered on site by one of our certified instructors. Trainees would know how to spot possible hazards and carry out safety checks needed for the efficient and safe use of a powered industrial lift truck.

Forklift Training Tips

The following checklist is essential for whichever workplace which has forklifts on the premises. Each of these questions must be answered with "yes" if all the safety rules and regulations are being followed. A "no" to whatever question indicates a procedural weakness that might result in damage to machinery, accident or injury.

- 1) Is the forklift operating area separated from pedestrian traffic?
- 2) Is pedestrian access to travel areas of the forklift restricted by barriers?
- 3) The pedestrian walkways well-marked?
- 4) Are "forklift in operation" signs clearly visible?
- 5) Are mirrors for drivers and pedestrians provided at blind spots?
- 6) Changes or alterations to the daily lift truck schedule has been communicated to employees?
- 7) Are lift truck tires suitable for use on all operating surfaces?
- 8) Forklift seatbelt is being utilized?
- 9) The forklift seat is in good condition?
- 10) Is a regular forklift maintenance schedule followed?
- 11) Is an annual forklift certification and inspection carried out?
- 12) Is the forklift right for the needed tasks?
- 13) Does forklift has a readable load chart?
- 14) Could the operators read and understand the load chart?
- 15) Does the chart list the safe capacity for various uses and attachments?
- 16) Are the warning devices on the lift truck working correctly?
- 17) Is the operating speed control device fitted properly?
- 18) The forklift overhead cage is fitted properly?
- 19) Have all forklift operators acquired certification?
- 20) Are speed limits and warning signs being observed?
- 21) Are forklift operators up to date on training for all kinds of lift trucks being used?
- 22) Do operators know their duties to report any machine damage and forklift accidents?
- 23) Is the pre-test checklist reviewed every day prior to the equipment being utilized?
